RISE Research Institutes of Sweden joins Eurovent

Brussels, Boras, 14 November 2023. The Research Institutes of Sweden (RISE) has formally joined Eurovent as an Associate Member. Its membership was approved during the Board of Directors meeting that took place on 19 September 2023.

RISE is a Swedish state-owned research institute that offers expertise and around 100 test and demonstration environments for future-proof technologies, products and services. RISE's activities include testing, calibrations and chemical analyses, research and development, control, assessments and normalisation and it functions as national metrology institute. RISE is on a national, European and international level known for performing tests for different certification and quality label schemes and it also certifies products.

Ms Monica Axell, Head of Research and Business Development at RISE Research Institutes of Sweden, stated: "We look forward to joining Eurovent and to be given an opportunity to work for greener and smarter buildings with the industry. Our research and close collaboration with the industry combined with our test facilities strengthen the HVAC industry competitiveness and sustainable development in Europe."

"At RISE, we can easily and efficiently ensure that products meet the set requirement, and we take part in shaping future standards and regulations to lead the way in transition to an innovative and renewal growth for the industry."

Is your organisation interested in becoming a member of our globally known industry association? All relevant information is available at www.eurovent.eu. In case of any questions, contact the Eurovent Team via secretariat@eurovent.eu.

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
