## **CETIAT joins Eurovent as Associate Member**

**Brussels, Villeurbanne, 16 January 2024. CETIAT, a technical centre for aeraulic and thermal industries in the French and international industrial ecosystem, has joined Eurovent as its newest Associate Member.**

Established in 1960, CETIAT is an independent French technical centre for the Heating Ventilation and Air Conditioning (HVAC) industry. It is a reference point to support in industrial innovation projects in the areas of ecological and energy transition, decarbonisation, indoor air quality and energy metrology. CETIAT's HVAC activities are split into 4 categories: engineering studies, testing of HVAC equipment, calibration of measuring instruments in the field of energy and training for installers, technicians and engineers.

Mr Pierre Claudel, General Manager at CETIAT, stated: "CETIAT's teams have been involved in the development of European and international standards for HVAC equipment (heat pumps, boilers, chillers, ventilation systems, fans and filters), in the evolution of European regulations and the development of test methods in support of standardisation. As such, CETIAT's experts are in close relationship with Eurovent, working together in various Product Groups to provide their expertise as a testing laboratory. Officially joining Eurovent is therefore an additional commitment to the European HVACR industry to help tackle the climate change challenges."

Is your organisation interested in becoming a member of our globally known industry association? All relevant information is available at [www.eurovent.eu](http://www.eurovent.eu). In case of any questions, contact the Eurovent Team via [secretariat@eurovent.eu](mailto:secretariat@eurovent.eu).

## About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

## Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
