## **Eurovent webinar on quality criteria for AHUs**

**Brussels, 07 November 2023. Eurovent invites industry stakeholders to its expert webinar, in which members will present the Eurovent Industry Recommendation on the Quality Criteria for Air Handling Units. It will take place on 05 December 2023.**

This webinar is tailor-made for end users, building owners, facility managers, designers, architects, commissioning engineers, contractors, installers, planners, specifiers and consultants from around the globe. The core aim is to dive deep into a comprehensive overview of features that determine highly efficient operation and correct service of Air Handling Units.

The webinar will address a wide range of aspects, such as properties of the casing and individual components, energy efficiency and controls requirements, maintainability, and the content of technical documentation. The guidelines presented in this webinar are intended to help investors, designers and end-users to assess whether the unit meets all practical expectations and requirements.

The webinar includes expert presentations on these topics:

- Guidance on the use of the Eurovent Recommendation on Quality Criteria for Air Handling Units
- Good practices for accessibility, assembly, energy efficiency, durability and maintainability of Air Handling Units
- What to focus on to invest well and ensure a long-life span of an Air Handling Unit

The individual presentations will be followed by a moderated Q&A session, where participants are invited to stir discussion on related issues. Register now and be a part of the Eurovent expert webinar 'Quality criteria for Air Handling Units: Industry Recommendation'. The webinar will be aired internationally on 05 December 2023 at 14:30-15:15h (Brussels Time).

Registration is free of charge and can be done via this [link](#).

## About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

## Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
