Save the date for 2025 Eurovent Summit in Prague

Prague, Brussels, 10 September 2024. Eurovent has announced the next edition of its flagship event Eurovent Summit to take place on 24-26 September 2025 in Prague, Czechia. Save the date for 3 days of insightful content under the theme #ManufacturingForTomorrow.

As the built environment undergoes continual transformation driven by environmental, technological, and economic shifts, the 2025 **EUROVENTSUMMIT** sets the stage for critical discussions under the theme **#ManufacturingForTomorrow**. This theme underscores the European HVACR industry's commitment to sustainable growth, which works for people, the environment and businesses.

Aligned with this vision, the 2025 **EUROVENTSUMMIT** will explore how circularity and sustainability can be part of growth and innovation strategies that advance the global leadership of European companies in HVACR technology. The event will take place in Prague in tribute to the city's historical significance and its location in the fast-developing HVACR manufacturing heartland of central Europe. The **EUROVENTSUMMIT** celebrates the lasting tradition of excellence upheld by the European HVACR sector and its recognition of the need to adapt to evolving customer demands and technological trends.

Raul Corredera Haener, the Eurovent President, stated: "We are thrilled to host more than 300 HVACR stakeholders at our next Summit in 2025, as we will focus on the industry's commitment to measure and manage its environmental impacts for a more sustainable future. We look forward to welcoming all participants to Czechia, a centrally located country developing exceptionally well in the HVACR sector. The next Eurovent Summit will highlight the environmental awareness of the HVACR industry, and the work being done to ensure a better life for future generations."

Join Eurovent, Eurovent Certification and Eurovent Market Intelligence on 24-26 September 2025 in Prague at the next **EUROVENTSUMMIT** to shape the future of HVACR manufacturing and sustainability. Let's build a more sustainable and competitive tomorrow together!

About Eurovent

Eurovent is the voice of the European HVACR industry, representing over 100 companies directly and more than 1.000 indirectly through our 16 national associations. The majority are small and medium-sized companies that manufacture indoor climate, process cooling, and cold chain technologies across more than 350 manufacturing sites in Europe. They generate a combined annual turnover of more than 30 billion EUR and employ over 150.000 Europeans in good quality tech jobs.

Mission

Eurovent's mission is to bring together HVACR technology providers to collaborate with policymakers and other stakeholders towards conditions that foster fair competition, innovation, and sustainable growth for the European HVACR industry.

Vision

Eurovent's vision is an innovative and competitive European HVACR industry that enables sustainable development in Europe and globally, which works for people, businesses, and the environment.
