## **Eurovent membership base expands as HiRef joins**

**Brussels, Tribano, 26 September 2024. Eurovent welcomes on board HiRef, an Italian manufacturer of HVACR equipment. The Membership application was approved during the recent online meeting of the Eurovent Board of Directors on 10 September 2024.**

Eurovent has welcomed its newest member HiRef, an HVACR equipment manufacturer that offers precision air conditioning systems for technological infrastructures, industrial process conditioning, and solutions that promote economic and environmental sustainability. Founded in 2001, the company is now at the centre of a network of businesses operating in complementary sectors with a high degree of specialisation in the HVACR sector, to ensure customers a complete, tailored, and sustainable service. It targets both the Italian and international markets, through a network of commercial branches and a network of dealers present in Europe, Latin America, and Africa.

Following its approval, Mr Fabio Poletto (General Manager at HiRef), mentioned: “We are thrilled to become part of Eurovent, as we see immense value in collaborating and exchanging ideas with fellow industry leaders. This kind of partnership is key to continuously enhancing industry standards, especially in the rapidly evolving IT cooling sector, which has a growing impact on our environment. By uniting our efforts, we can drive the market forward, focusing on innovation and setting standards that prioritise sustainability.”

Is your organisation interested in becoming a member of our globally known industry association? All relevant information is available at [www.eurovent.eu](http://www.eurovent.eu). In case of any questions, contact the Eurovent Team via [secretariat@eurovent.eu](mailto:secretariat@eurovent.eu).

## About Eurovent

Eurovent is the voice of the European HVACR industry, representing over 100 companies directly and more than 1.000 indirectly through our 16 national associations. The majority are small and medium-sized companies that manufacture indoor climate, process cooling, and cold chain technologies across more than 350 manufacturing sites in Europe. They generate a combined annual turnover of more than 30 billion EUR and employ over 150.000 Europeans in good quality tech jobs.

## Mission

Eurovent's mission is to bring together HVACR technology providers to collaborate with policymakers and other stakeholders towards conditions that foster fair competition, innovation, and sustainable growth for the European HVACR industry.

## Vision

Eurovent's vision is an innovative and competitive European HVACR industry that enables sustainable development in Europe and globally, which works for people, businesses, and the environment.
