Eurovent India workshop: Energy Efficient IAQ

Eurovent India invites senior consultants and key industry stakeholders to an expert workshop on energy efficient IAQ solutions. The agenda dives deep into the subject of Air Handling Units and their crucial components, and outlines industry recommendations to achieve the highest quality for the lowest energy consumption. The event will take place on 12 April 2023, 16:00-21:00h (Local Time) in New Delhi and will conclude with a networking dinner.

The workshop is organised by Eurovent's local Indian working group comprised of leading HVACR companies active and manufacturing in India. Aside from technical topics related to Air Handling Units, participants will also hear on latest standards and certification programmes for Air Handling Units and Air Filters for hot and humid climates, as well as industry recommendations for minimum requirements for Air Handling Units.

The programme includes expert presentations on these topics:

- Air Handling Units: Fundamentals, Life Cycle Costs and Hygienic Air Handling Units
- Energy efficiency and benefits of air filtration
- Selection of ISO 16890 Air Filters for general ventilation
- Efficiency and benefits of direct driven Fans
- Energy Recovery
- Controls
- Eurovent Recommendation 6/18: Quality criteria of Air Handling Units
- Eurovent Certification for Air Handling Units in hot and humid climates

Devraj Singh, Chairman of Eurovent India, highlighted: "The mission of Eurovent India is to formally establish standards aligning to global benchmarks in energy efficiency, indoor air quality and environmental products, to cater the Indian market which is now rapidly evolving and innovating. Our workshop brings a unique opportunity for everyone locally involved in these important subjects to come together and debate on industry recommendations and best practices. This event is the first of many initiatives we at Eurovent India plan to bring to the local market."

Participation is free of charge. Registration can be made via [this link](#). Due to space limitations, Eurovent India kindly asks to only register if attendance is guaranteed and that registrations are cancelled in case attendance becomes impossible. This way the organiser can make sure to allow as many people to the event as possible.

About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.
