## **Belimo joins Eurovent as a Corresponding member**

**Brussels, Hinwill, 24 November 2022. Belimo has formally joined Eurovent as a Corresponding Member. It is one of the leading global manufacturers of innovative damper actuator, control valve, sensor and meter solutions for heating, ventilation, and air conditioning systems.**

[The Belimo Group](#), founded in 1975, is one of the leaders in the development, production and sales of control devices for energy-efficient control of heating, ventilation and air conditioning systems. Damper actuators, control valves, sensors and meters make up the company's core business which has achieved sales of CHF 765 million in 2021 and employs around 2.000 people. The shares of BELIMO Holding AG have been traded at the SIX Swiss Exchange since 1995 (BEAN).

Following the membership approval, Mr Oliver Topf, Senior Team Leader of Air Handling Units at Belimo, stated: "Eurovent is an important industry association for indoor climate (HVAC) in Europe. Belimo is therefore very pleased to be a member of Eurovent. We will actively work together with other members and associations to tackle the current challenges in terms of energy savings, sustainability and safety, and to drive them forward with good examples and initiatives. Substantial progress can only be achieved at the legislative or standardisation level and this requires close cooperation in all respects. I look forward to the interesting discussions and active participation in the individual Product Groups and Task Forces."

Is your organisation interested in becoming a member of our globally known industry association? All relevant information is available at [www.eurovent.eu](http://www.eurovent.eu). In case of any questions, contact the Eurovent Team via [secretariat@eurovent.eu](mailto:secretariat@eurovent.eu).

## About Eurovent

Eurovent is Europe's Industry Association for Indoor Climate (HVAC), Process Cooling, and Food Cold Chain Technologies. Its members from throughout Europe represent more than 1.000 organisations, the majority small and medium-sized manufacturers. Based on objective and verifiable data, these account for a combined annual turnover of more than 30bn EUR, employing around 150.000 people within the association's geographic area. This makes Eurovent one of the largest cross-regional industry committees of its kind. The organisation's activities are based on highly valued democratic decision-making principles, ensuring a level playing field for the entire industry independent from organisation sizes or membership fees.

## Our Member Associations

Our Member Associations are major national sector associations from Europe that represent manufacturers in the area of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation technologies.

The more than 1.000 manufacturers within our network (Eurovent 'Affiliated Manufacturers' and 'Corresponding Members') are represented in Eurovent activities in a democratic and transparent manner.
